

WKE WORLD KEY ENERGY CONQUERS ROMANIA

WKE WORLD KEY ENERGY is a supplier of photovoltaic modules and complete solutions created by senior managers with an huge experience and seniority in renewable energy sector.

WKE WORLD KEY ENERGY, thanks to its specific know-how, is able to pre-empt the best market opportunities provided by the Romanian distribution chains throughout a continuous and deep understanding of the key distributors needs and the laws changes. Key open mission is to penetrate Romanian market with a specific focus on photovoltaic market. **WKE WORLD KEY ENERGY** key scope is the supply of high quality modules and photovoltaic products that includes the support, development and management of big PV plant in Romania.

The full cooperation with the best professional agencies allows to **WKE WORLD KEY ENERGY** to offer the support for foreign and local Investors to develop the feasibility and study request, field analysis, bureaucratic affairs need to receive the approval for the electrical energy production of PV services.

The WKE modules and PV complete solutions are present in all Romanian regions thru sales and technical Agent who are active in the most important shopping centre supported by skilled local operators. WKE product range is articulated in traditional PV modules: mono and polycrystalline from 120 to 310 Wp and the Family Solar, the new PV kit solution ad hoc configured with modules, Inverters, structures, ready to mount by qualified operators.

WKE World Key Energy is a point of reference for the investor interested in making a **Photovoltaic Park** with WKE modules or get advice for a plant "turnkey" designed and edited as EPC. A photovoltaic park is an investment with an excellent economic performance: thanks to a bank loan specially developed by WKE World Key Energy, or through an equity capital, you can have the benefits through the sale of Green Certificates received, allowing a big economic return.

WKE World key Energy solar panels are guaranteed to customers and investors through our Solar Module Bankability testing and inspection services. As Bankability drives the industry today, World Key Energy delivers the documents to help you demonstrate the ability of our products. Beyond certifying the safety and performance of our photovoltaic product, we declare our PV module "bankable" for governments, customers and investors. Bankability helps mitigate risk for wholesalers, power plants, developers, investors, and customers.

WKE WORLD KEY ENERGY strongly believes in the deep field coverage developed thru an ample range of Distributors and Retailers, specialized and focussed on PV market. For these reasons **WKE WORLD KEY ENERGY** is actually established in Timisoara by a technical, sales and logistic subsidiary, where product is constantly available in real delivery time. WKE World Key Energy has its own logistics office at Euroccoper, in Timisoara, and is able to distribute products throughout Romania in 48/72 hours.

WKE WORLD KEY ENERGY operates in Asia: Zhejiang. And in Europe: London, Frankfurt, Rome, Krakow and Timisoara.
