

## WKE DS10 parameter description (demo cart)

It's good for large area agricultural irrigation. Applying drip irrigation and sprinkling irrigation methods, one set of this pump can irrigate 33.000 to 66.600 m<sup>2</sup>. Stable & correct running system, automatic maintenance, convenient usage, unnecessary supervised after installation, no more extra charge.

### In the kit

Photovoltaic modules - Water pump - controller  
 Inverter - cabinet - electrical tape - water-proof electrical tape - air switch - water level sensor hanging rope - rope buckle - cables - MC4 Connector

**Other power on request**

Model: WKEDS1050			
Power (w)	1960	Peak Flow (M <sup>3</sup> /H)	8
Inverter	2000	Lift (M)	50
Photovoltaic modules: 8 x 250Wp Poly in series			

Model: WKEDS1080			
Power (w)	1700	Peak Flow (M <sup>3</sup> /H)	4
Inverter	2000	Lift (M)	80
Photovoltaic modules: 7 x 250Wp Poly in series			

Model: WKEDS10100			
Power (w)	1960	Peak Flow (M <sup>3</sup> /H)	4
Inverter	2000	Lift (M)	100
Photovoltaic modules: 8 x 250Wp Poly in series
